DBZ: GOKU DENSETSU OUT NOW IN EUROPE

- NAMCO BANDAI Games Bring Original DBZ Role Playing Title to Nintendo DS -

LYON, FRANCE – 31 August 2007 – Atari today announced the launch of NAMCO BANDAI Games' ***DBZ: Goku Densetsu*** for Nintendo DS. Published by NAMCO BANDAI Games Europe SAS and distributed in Europe by Atari, ***DBZ: Goku Densetsu*** is available now at retailers across Europe.

DBZ: Goku Densetsu for the Nintendo DS is an all new DBZ experience unlike any other, combining strategic card-based gameplay and role playing elements to deliver a game that is easy to understand but hard to master. Players' progression is determined through their use of the cards to evolve characters, strengthen moves and create new moves.

In the game, cards are marked with eight types of actions, eight power levels and eight guard levels for a total of 512 possible combinations that will determine progress. Players are dealt five randomly selected cards to play with each card denoting one of eight types of actions. The intensity of special attacks will increase as the game progresses and multiple cards can be played together to power up attacks and enhance guard levels for super combos. While the game will progress even if players do not choose the best cards, strategic players will be able to unlock more surprises and become true masters. ***DBZ: Goku Densetsu*** also supports wireless battle for up to 4 players and includes a game sharing mode.

Dragon Ball Z is the gold standard of anime-based video games, with more than 26 different games and over 10 million units sold since May 2002.
