**ATARI ANNOUNCES *GODZILLA*[®]: *UNLEASHED*
ON PLAYSTATION[®] 2**

**- Atari's Eagerly Awaited Monster Romp Now Coming
to PlayStation 2, Wii and Nintendo DS in Autumn 2007-**

LYON, FRANCE – 12 September 2007 – Atari today announced the further growth of one of its long-running publishing franchises with the news that ***Godzilla*[®]: *Unleashed***, the ultimate giant monster fighting game, is in development for the PlayStation[®]2 computer entertainment system in addition to Wii and Nintendo DS[™]. Developed by Pipeworks, ***Godzilla: Unleashed*** is scheduled for a simultaneous autumn 2007 release on all three platforms.

Godzilla: Unleashed is a fighting game on a giant scale, starring the legendary Godzilla and a host of more than 20 of the most renowned monsters of all-time. Players are challenged to save the planet from mayhem and destruction, but not before causing some of their own. Set in nine urban arenas, ***Godzilla: Unleashed's*** interactive 3D cityscapes, big destructible buildings, soaring skyscrapers and towering alien formations provide the backdrop to epic battles and comprehensive destruction.

"Bringing ***Godzilla: Unleashed*** to the vast PlayStation 2 audience as well as the massive and growing Wii and DS fanbase is another feather in the cap of Atari's growing publishing line up," said Mathias Hautefort, Executive Vice President of publishing and production, Atari. "The Godzilla license is a global phenomenon and Atari has a successful history of putting the player in control of everyone's favourite monster. This most recent collaboration with independent studio Pipeworks will result in yet another must-have monster romp."

The character line-up on the PlayStation 2 features new monsters not found on the Wii and DS versions of the game. Players will fight more than 20 monsters, with the newcomers taking their place amongst the familiar faces from past Godzilla video games. ***Godzilla: Unleashed*** features an innovative non-linear storyline which lets players influence how the story unfolds through their choices in battle, and a flexible multiplayer mode which supports up to four players for the ultimate city-crushing monster mash.
