## **ATARI ANNOUNCES 'NAMCO MUSEUM REMIX™' FOR Wii, REVITALIZED NAMCO CLASSICS**

**- Atari Announces NAMCO BANDAI Games' Collection of Remixed and Original Classics Coming to Europe March 2008 -**

LYON, FRANCE – 28 January 2008 – Atari today announced the forthcoming European release of NAMCO BANDAI Games' **Namco Museum Remix™** for Wii. Featuring a complete graphical makeover, **Namco Museum Remix** includes five remixed Namco arcade games with new controls utilizing the Wii Remote to whip, swing, twist and shake up the video game classics. Also featuring a collection of arcade games that stay true to their original arcade style, **Namco Museum Remix** for Wii is scheduled for European release in March 2008.

**Namco Museum Remix** breathes new life into all time classic games by taking their fun and famous gameplay and adding new twists which are easy to grasp, involve multiple players, and offer a level of fun only possible with the Nintendo Wii. The titles in the collection include:

**Pac'n Roll Remix** – Pac-Man takes a break from chomping and rolls his way to victory instead. Players navigate Pac-Man by rolling him through worlds where he will face deadly obstacles, roll-up classic pac pellets and use awesome power-ups.

**Galaga Remix** – With Galaga invaders arriving from the far reaches of space, players must try to shoot down the invading forces and save Pac-Man from ultimate destruction. Up to four-players are able to challenge the oncoming invaders, and scores are tallied for each player.

**Pac-Motos** – The ability to destroy a planet is insignificant next to knocking your opponents off a series of unique and colorful stages all while using the Wii Controller to move, dash and power-up your Pac-Man! Players engage in a small arena where the goal is to knock opponents off while grabbing power-ups and navigating through challenging environments.

**Rally-X Remix** – With up to 4 players capable of taking the screen at once, this classic Namco title is brought new life with slick graphics, power-ups and a new intuitive control scheme using the Wii Remote to steer.

**Gator Panic Remix** – Gators pose a serious problem and Pac-Man is here to solve it. Players use Pac-Man to whack at emerging gators that appear on screen. The player with the most gator whacks at the end of a match wins!

Also included in Namco Museum Remix are nine faithful classic Namco arcade games to experience again or for the first time: Galaxian, Dig Dug, Mappy, Xevious, Gaplus, Super Pac-Man, Pac & Pal, Pac-Mania and Cutie-Q.
